A YubiKey is a small electronic device that works as a security key and can be used for various authentication methods. On Binance, security keys can provide an extra layer of account security, acting as a Two-factor Authentication (2FA) method for logging in to your account, withdrawing funds, and resetting passwords. While there are other types of security keys, this guide focuses on the YubiKey.

A decentralized exchange is a cryptocurrency exchange where you can trade cryptocurrencies from your own wallet without trusting third parties. Decentralized exchanges are powered by smart contracts which allow users to trade cryptocurrencies directly with other users or through liquidity pools. Decentralized exchanges are non-custodial exchanges and based on smart contracts, so there is no need to trust a third party with your funds.
