The price action then broke out at \$0.138 and continued its new trend. The left structure leaves clues. You can see that this was the previous high before it was taken out. This led to ADA's bullish run in 2021. Fast forward to today's price action, we now see that the token is establishing a support level.

Hacking Coinbase Just because something is trusted by millions of users doesnt mean that its secure and safe to be your custodian. At the end of the day, trusted third parties are security holes and the whole point of Bitcoin is to participate in a permissionless system which grants you financial sovereignty.
