linch.Exchange is an aggregator of decentralized exchanges. It has been active since 2019. You can swap tokens here, and also place limit orders for a wide variety of tokens. The orders you place are not only placed against the platform's own order book. Rather, it is placed against a number of other DEXs order books (dependent upon your settings).

This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.
