It is a very risky trading strategy too, but with the right approach, it can be used to cash in on the short-term volatility in the market. However, not all cryptocurrencies are suited for day trading. In fact, here are some attributes that typically define the best day trading assets.

As a day trader making a high volume of trades, just a marginal difference in rates can seriously cut into profits. There are three main fees to compare: Exchange fees This is how much you'll be charged to use their cryptocurrency software. What currency and coins you're trading can influence the rate.
