A crypto screener like Cryptolume is a tool that can be used to scan for trading patterns that you typically use. With a crypto screener you can then find all coins which currently are outlaying that pattern on any given exchange that is supported and then youll be able to find information a lot faster than other people.

As momentum trading works best in volatile market environments, the highly volatile crypto market is more suitable for this strategy than the traditional stock market. Volume : This factor represents a specific coins 24-hour market activity i.e., the number of coins that have been traded within 24 hours.
