What are the fees on Coinbase Pro? Trading Fees. Coinbase Pro uses a maker-taker fee model for determining its trading fees. Orders that provide liquidity (maker orders) are charged different fees than orders that take liquidity (taker orders). Fees are calculated based on the current pricing tier you are in when the order is placed, and not on the tier you would be in after a trade is completed. Your fee tier is recalculated hourly based on your total trading volume.

The most popular and easy-to-set-up crypto wallet is a hosted wallet. When you buy crypto using an app like Coinbase, your crypto is automatically held in a hosted wallet. Its called hosted because a third party keeps your crypto for you, similar to how a bank keeps your money in a checking or savings account. You may have heard of people losing their keys or losing their USB wallet but with a hosted wallet you dont have to worry about any of that.
