So, in this context, Storj is worth buying. Is Storj a good investment? Storj is, just like all other cryptocurrencies, a risky investment. It does have higher probability of going up than down because of the good use case, well-designed tokenomics, active community and a solid team behind it. How much will Storj be worth? For the short-term future, it could reach \$1.86.

Storj DCS is private by design and secure by default, delivering unparalleled data protection and privacy vs. centralized cloud object storage alternatives. Developers can trust in innovative decentralization technology to take ownership of their data and build with confidence.
