Initial coin offerings, also referred to as ICOs or token sales, are a way to fund cryptocurrency projects. An initial coin offering is used by startups to bypass the rigorous and regulated capital-raising process required by venture capitalists or banks. In an ICO campaign, a percentage of the cryptocurrency is sold to early backers of the project in exchange for legal tender or other cryptocurrencies, but usually for Bitcoin.

XRPL Coins was created to provide a community driven platform bringing live pricing, tools, and resources to those building and investing in the XRP Ledger. We empower the community with accurate, unbiased information retrieved directly from the XPR Ledger, which is necessary to make more educated decisions.
