Such nodes require extraordinary amounts of storage and memory. It often takes hours to join and sync to the network with a full node. Running a full node with cloud services will likely require you to pay a monthly service fee. Compare this with using a light node. These take up less space and can be small enough to run on mobile devices.

Should I run my own node?. The pros and cons of running a .

Running a full node instead of a lightweight client or using a SPV wallet (as most users do) is an act of support for Bitcoin. Unlike mining, there are no financial incentives for running a full.
